

Transport

Grade 1 ENL
Ms. Aiki Galanis

Transport!

One of the themes in ENL 1 is "Transport". The children are taught about the different means of transport. They are given the opportunity to talk about their own experiences and share ideas. After discussion and listening to stories on the theme, the children are also made aware of the negative aspects of transport, *e.g. how the beauty of the countryside can be spoiled.* Besides this, the children are engaged in project-based work (prepared by Ms. Vlassopoulos). This culminates in a group project in which all the students co-operate to make a transport poster.
